All Injuries

Data are for the U.S.

Morbidity

- Number of medically attended injury and poisoning episodes in the population: 37.4 million
- Episodes per 1,000 population: 121.2

Source: [Summary Health Statistics for the U.S. Population: National Health Interview Survey, 2012, table 7](#)  [PDF - 1 MB]

Ambulatory care visits

- Number of visits (to physician offices, hospital outpatient and emergency departments) for injuries: 80.1 million (includes visits for adverse effects of drug, medicinal or biological substance)

Sources: [Selected patient and provider characteristics for ambulatory care visits to physician offices and hospital outpatient and emergency departments: United States, 2009-2010](#)  [PDF - 127 KB]

Emergency departments visits

- Number of emergency department visits for injuries: 43.0 million (includes visits for adverse effects of medical treatment)

Source: [National Hospital Ambulatory Medical Care Survey: 2011 Emergency Department Summary Tables, Table 17](#)  [PDF - 1.1 MB]

Hospital inpatient care

- Number of discharges for fractures (all sites): 1.1 million
- Number of discharges for poisonings: 260,000
- Number of discharges for certain complications of surgical and medical care: 1.0 million

Source: [National Hospital Discharge Survey: 2010 tables, Average length of stay and days of care - Number and rate of discharges by first-listed diagnostic categories](#)  [PDF - 58 KB]

Mortality

All injury deaths

- Number of deaths: 192,945
- Deaths per 100,000 population: 60.2

All poisoning deaths

- Number of deaths: 48,545
- Deaths per 100,000 population: 15.4

Motor vehicle traffic deaths

- Number of deaths: 33,804
- Deaths per 100,000 population: 10.7

All firearm deaths

- Number of deaths: 33,636
